AHEARN'S NEW PLAN FOR WILLIAMSBURG BRIDGE

Would Construct Temporary "L" Terminal at Norfolk Street and Do Away with Proposed Loop to Brooklyn Bridge.

Borough President Ahearn is preparing a plan which he says will solve
the question of elevated traffic over
the question of elevated traffic over
the elevated lines crossing the
bridge from Brooklyn would take thou-

the question of elevated traffic over the Williamsburg Bridge and do away with the necessity for an elevated loop connecting the two bridges as proposed by Bridge Commissioner Stevenson.

His plan will be submitted to the special committee of the Board of Estime, to which the loop plan was referred, and the President of Manhattan Mieves it will be adopted.

It is to connect the Brooklyn elevated roads with the same time vou will accommodate the same time vou will accommodate the same time to the distant roads with the same to the distant roads with the those who have to cross Brooklyn Br Brooklyn elevated trains over the bridge Brit to the Manhattan terminal in Delancy street at Norfolk, and have the passenstreet at Norfolk, and have the temporary and embarked at that gers discharged and embarked at that point. The entire arrangement is to be temporary, and Mr. Ahearn contends it temporary, and Mr. Ahearn contends it will relieve congestion, accommodate an ous number of people, and do everything that is claimed for the plan of Commissioner Stevenson as submitted to the Board of Estimate.

Thinks Problem Is Simple.

"I have been giving this matter a great deal of study," said Mr. Ahearn, "and I am convinced that the problem is comparatively simple.
"The trouble is that they have been

going on a false supposition and trying to devise plans that will do two things at once. They want to relieve the congestion at both bridges, and to do that so on the false supposition that the crowds will have to be carried from one bridge to the other by a loop con-recting the two bridges. This is not true. The people who would go over the Williamsburg Bridge would not come near the Brooklyn Bridge if they could get to the Williamsburg Bridge any other way. They would go direct from whatever part of the city they happen to be in, and take the cars at the bridge to go to their homes in Williamsburg or Brooklyn. The plan which I propose will relieve congestion at both points. It will do this in two ways.

"First, It will divide the crowds that have to cross the Williamsburg Bridge four blocks apart, so that surface trav-cilers will not be mixed with crowds go-ing home by the elevated lines.

Will Relieve Congestion.

"Second, It will provide means for a lirge number of people to go home by a shorter route than they now take over the Frooklyn Bridge, and instead of going to the Brooklyn Bridge to make

KILLED IN STORM THAT WRECKS HOUSES.

WILKESBARRE, Pa., June 18 -In the most severe storm which has swept over this section in years Frank Bunnell, of this section in years Frank Bunnell, of Meshoppen, was killed early to-day, and Thomas Davis, of Ashley, badly burned and Officer August Cronauer, of this city, knocked anconscious by lightning. Fourteen houses, three churches and four coal-breakers in Wilkesbarre and vicinity were struck and damaged, but the heavy rain quenched the fires arted.

Wires are down in all directions and the railroads and trolley lines are crippled by floods from the Susquehanna River and other streams.

Heavy damage has been done to the grain and fruit crops.

BRITISH BATTLE-SHIP DISABLED IN CRASH.

LONDON, June 18 .- The British battle. ship Ramilles was assisted back to Sheerness to-day, having been in colli-

Resolution. The latter was not damaged, but the former must be docked for necessary repairs, principally to her propeller.

So far as is known the Ramfilles is the only hig ship crippled by collision during the week's naval manoevres. Two or three torpedo craft have been in collision or aground and some machinery defects have developed, but very few compared with former manoevres.

No Store But WANAMAKER'S Ever Knew Such Selling Of Women's Shirt-Waist Dresses

No other store ever dared make such a tremendous purchase. But last week's phenomenal selling did not end the sale. By no means. It has only just begun. We knew when we bought the suits that they would not be sold out, perhaps until the end of July. They would be splendid merchandise for a store to sell at these prices on the last day

They'll be gone long before that; but we want to assure you of the immense quantities, and the splendid assortments that newly fill the counters of the Second Floor and Basement to

In bringing the new lots from the stock-rooms on Saturday night we discovered large quantities in solid colors and stripes, which those who came last week picked out so eagerly, and that is the beauty of the offering today. Reserve stocks are so arranged that as they come forward they are in the handsome original assortment, maintaining almost the same magnificent variety as when the sale started. The only shortcoming is in the \$7.50 suits. There were only a few hundred of them to be found, and they were all put in the \$5 lot.

Customers and critics combine in expressing their enthusiasm over the beautiful fabrics and the splendid way in which "Royal" Shirt-Waist Suits are made. Then every suit is fresh and crisp, packed in its original box, so that it comes to you without being mussed or soiled, as other goods would that were sold at such tremendous reductions from their original values.

The \$3 suits are shown in the Basement, Fourth avenue end. The \$5 suits are on the Second floor, Broadway.

Another stirring announcement comes from the Costume Store today:

\$18 Silk Dresses at \$8 Each

During the recent weeks we have sold many thousands of these beautiful Silk Shirt-Waist Dresses-of course, in a multitude of different styles. Starting at \$10.75, when we made the first break in the price, then we succeeded in lowering it to \$9.50; and today, because the manufacturer sails for Europe tomorrow, we are able to say \$8 each for the dresses. They are really prottier than the original lot, and these will be absolutely the last that can be secured. No! dressmaker would undertake to make such dresses, with all materials provided, at the price for which you secure them ready-made. When you see the silks you can judge for yourself at what SALE OF PICTURES ow prices they must be bought in order to secure materials alone for the \$8 paid.

The styles are the choicest we could select. All are made in ample sizes, using two or three yards more of silk than go into many low-priced silk dresses. You will agree that they are fully \$18 value in the regular way, and you select from about seven hundred dresses. At \$8 leach. Second floor, Broadway, Stewart Building.
